

## WHY VELASCO

The VELASCO line is the ultimate cruising boat. What sets the Velasco apart from the rest? There are three defined comfortable living spaces on the flybridge. On the main deck, there is a perfect balance of space between the swim platform, cockpit and interior salon. Down below, the volume has been optimized to include the two cabins with separate head and shower compartments. The innovative Velasco line provides smooth handling while underway with the entire crew.

## MEET HENRI JEANNEAU

In 1957, in the small town of Les Herbiers, France, Henri Jeanneau discovered his love for powerboating. He built his first wooden hull with which he placed first in the 6-hour Paris Race. A year later, the shipyard built its first fiberglass hull – a breakthrough in technology during that time. And now the rest is history.

Today, Jeanneau Outboards are built in Cadillac, Michigan and Ostroda, Poland. Jeanneau has grown over the past 60 years, with more than 400 Jeanneau Dealerships worldwide in nearly 70 countries – including the United States and Canada.
